The anomaly in the passing criteria in the subject of Engineering Maths and Engineering Drawing of STD XI in Automobile Engineering Technology Course was discussed in the meeting regarding Promotion rule to STD XII.

As per Board promotion rules in a Composite subject the candidate has to secure minimum 'H' grade separately and 'G' grade overall for passing.

The BOS recommends that the same rule be applied for Engineering Maths (Theory) and Engineering Drawing (Practicals) for Class XI AET Course as it is a combined subject.
