

## **Guidelines for Teachers teaching Economics for StdXII**

The Board of studies in Economics has decided to delete the skill objective from the blue print since it does not feature in Blooms taxonomy. It was decided then, to have the following objectives only in the blue print.

- a) Knowledge
- b) Understanding
- c) Application

The marks allotted to skill objective will be adjusted in the marks allotment of knowledge, Understanding and application objectives.

Therefore please note the following.

The weightage for application has been increased from 5% to 10% and teachers are encouraged to frame Questions by using the following verbs for new situations.

Apply, solve, Illustrate, sketch, choose, compute.

All other diagrams which include schedules & explanations, and only diagrams will come under knowledge and understanding.

For one mark Questions (VSA), only MCQ will be asked along with options for students to choose from, in order to avoid getting dual answers and bring about uniformity in answers.

Teachers are advised to refer to any textbook for subject matter to be taught eg.
